KIT's College of Engineering (Empowered Autonomous) Kolhapur

Entrepreneurship Cell

Details of Activities conducted in AY 2025-26

The Tagline and Logo - Think Innovate Implement

Establishment Year- 2017 -2018

Information about club –

E-Cell KITCoEK, also known as The Entrepreneurship Cell of KIT's College of Engineering, Kolhapur, is a student-driven initiative dedicated to promoting entrepreneurship, innovation, and leadership among students under the tagline "Think. Innovate. Implement." The cell provides aspiring entrepreneurs with a platform to transform creative ideas into successful ventures by offering mentorship, networking opportunities, resources, and practical exposure to the startup ecosystem.

E-Cell KITCoEK actively contributes to building an entrepreneurial culture within the campus by organizing workshops, startup competitions, guest lectures, and interactive sessions with industry professionals and successful entrepreneurs. One of its major initiatives is the E-Summit, the flagship entrepreneurship event of the college, which brings together startup enthusiasts, investors, innovators, and business leaders from across the country. The summit features activities such as Business Expo, finance and stock market workshops, pitching competitions, and speaker sessions with renowned entrepreneurs, including personalities featured on shows like Shark Tank India. Along with events like Illuminate, Pitching Deck, and the ECR Program, E-Cell KITCoEK continuously inspires students to develop innovative thinking and practical business skills.

Activities Conducted in the Academic Year 2025-26 by the student club-

1. Session on Innovation Inspired by Nature (Biomimicry)

Name of the Activity	Date of Activity	Resource person/judge	Student beneficiary count
Innovation Inspired by Nature (Biomimicry)	08th August 2025	Dr. Sanjay Shridhar Lakade	20-22 students and 8 faculty members
ATL Thinking Session	19 Aug 2025.	Central E cell team	50
E-CELL Badge Ceremony 2025-2026	13/09/2025	Dr. Jitendra Bhat, Dr. Sachin Shinde, Dr. Saee Thakur	100
ILLUMINATE 2025	October 05 ,2025	Mr. Sunil Bharadwaj	80
E-HEIST	October 12 and 13 ,2025	Mr. Nilesh Jain	300

The main motto of this session was to inspire youth to think beyond conventional boundaries and explore innovative ideas for the well-being of society, taking inspiration from Mother Nature. Nature itself holds the power to solve many challenges, offering valuable lessons and insights that guide us toward sustainable and meaningful solutions. Biomimicry is the practice of learning from and imitating nature's designs, systems, and processes to solve human challenges in a sustainable way. Speaker briefed about following points with case studies.

• 4 P's: Passion, Patience, Perseverance, Problem Solving Attitude. Youth should follow these 4P's to think and innovate.

• Way of thinking: There are various examples in natures which make us think out of the box e.g. Jellyfish, it does not have any heart but still its alive. Just like it why can not we make Diskless Workstations.

• Lack of problem statement: In India the youth is only behind the solution of same problem. There is a need to find a real problem statement which may act as a solution for a real-life problem.

Photographs

2. ATL Thinking Session

The session aimed to introduce students to Arduino Uno, different types of sensors, and the basics of entrepreneurship, while also engaging them in fun hands-on activities to boost creativity, innovation, and teamwork. Introduction to Arduino Uno. Students learned about Arduino Uno microcontroller board. Explained its importance in electronics, robotics, and automation projects. Demonstrated basic connections and coding to control simple electronic components. Ultrasonic Sensor: Explained working principle using sound waves for distance measurement and obstacle detection. Infrared Sensor: Demonstrated how it detects objects and motion using IR rays. Touch Sensor: Explained its role in detecting physical contact and use in smart devices. Showed real-life applications of these sensors (e.g., automatic doors, obstacle-avoiding robots, touch-based gadgets). Entrepreneurship Session: Discussion on innovation and problem-solving. Encouraged students to think like entrepreneurs by identifying everyday problems and designing creative solutions. Shared examples of startups and young innovators to motivate students. Fun Activities Small group activity: Brainstorm. Quiz and interactive games to revise the session concepts. Students gained practical knowledge of Arduino and sensors. Improved their analytical and critical thinking skills. Developed an understanding of entrepreneurship and innovation. Actively participated in fun and engaging activities, enhancing teamwork and creativity. The session was highly interactive and helped students connect theory with practical applications. It not only introduced them to STEM concepts but also motivated them to think innovatively and explore entrepreneurial possibilities using technology.

3. E-CELL Badge Ceremony 2025-2026

The Entrepreneurship Cell (E-Cell) KITCOEK proudly and enthusiastically held its Badge Ceremony 2025-2026. The purpose of this event was to welcome new badge bearers who will guide the E-Cell with creativity, accountability, and an eye toward entrepreneurial expansion. This ceremony was arranged for the students who will take over new leadership roles. This ceremony signaled the start of a new journey that will encourage innovation and an entrepreneurial spirit. The event began with an inspiring address by Dr. Sachin Shinde, urging members to pursue innovation and uphold the E-Cell's vision. Dr. Jitendra Bhat followed, stressing perseverance and the importance of continuing the legacy of past teams. Dr. Saee Thakur concluded by highlighting teamwork as key to reaching new milestones and elevating the E-Cell further. The event continued with the badge ceremony, honoring Advisory Members for their guidance and support. Associates were then awarded badges for their roles across various domains. Finally, badges were presented to the newly appointed Overall Coordinator, Executive Coordinators, and Secretary, formally inducting the core leadership team for the year. To conclude the ceremony, the Advisory Members and Heads addressed the gathering with insightful speeches. They reminded the badge bearers that each badge symbolizes not just recognition, but also responsibility. Their words encouraged the team to continually strive for self-improvement, uphold the values of the Entrepreneurship Cell, and remain committed to

achieving excellence. The E-Cell Badge Ceremony 2025 marked the beginning of a new chapter of leadership and responsibility. With inspiring messages and the formal induction of badge bearers, the event reinforced the values of innovation, teamwork, and growth, setting the tone for greater achievements ahead.

4. Illuminate 2025

The "Illuminate 2025" event report highlights a successful entrepreneurship and financial literacy program organized to help students develop innovative thinking, business understanding, and financial awareness. The event featured expert sessions by dignitaries including Sunil Bharadwaj Sir, Nilesh Jain, and Chairperson Reva Patil.

The program covered important topics such as investment planning, stock markets, mutual funds, SIPs, entrepreneurship fundamentals, and startup financial concepts. Mr. Nilesh Jain explained key financial ideas like assets, Gold ETFs, government bonds, and risk management in investments.

The entrepreneurship sessions introduced students to concepts like the VUCA world, elevator pitching, SWOT analysis, customer segmentation, and Business Model Canvas

(BMC). Interactive activities such as team formation, problem-statement discussions, and BMC exercises encouraged practical learning, teamwork, and analytical thinking.

The event concluded successfully with students gaining valuable exposure to entrepreneurship, financial decision-making, and startup strategies. Overall, illuminate 2025 proved to be an engaging and educational experience that motivated participants to think creatively and pursue entrepreneurial opportunities.

3. E-Heist

E-Heist was a two-day academic and experiential event conducted on 12th and 13th October with the objective of enhancing students' analytical reasoning, creativity, teamwork, and strategic thinking through an engaging heist-themed format. The event created an immersive learning environment that combined intellectual challenges with practical skill development. It was inaugurated in the presence of esteemed dignitaries including Sachin Shinde Sir, Jitendra Bhatt Sir, and Dr. Saee Thakur Ma'am.

The first day began with a formal inauguration ceremony followed by a session on trading and financial concepts. Students gained valuable insights into market behavior, investment decisions, and trading strategies, helping them improve their financial awareness and understanding of investment fundamentals.

To align with the event's theme, participants dressed as thieves and presented a themed entry, which added excitement and audience engagement. Students were then divided into groups for competitive activities. One group participated in the Heist Activity, which included puzzles, riddles, and problem-solving tasks that tested logical reasoning, teamwork, time management, and decision-making abilities. The second group participated in the Advertisement Activity, where students created and presented innovative advertisements based on assigned themes.

The second day featured the U25 Summit, which included performances, interactive sessions, and engaging discussions with invited guests. Ms. Mrunal Divekar shared inspiring insights about her professional journey, challenges, and determination, motivating students to pursue their goals with confidence and perseverance. Rapid interactive rounds were also conducted to encourage quick thinking and adaptability among participants.

Overall, E-Heist was successfully conducted and proved to be an educational as well as entertaining experience. The event helped students develop important skills such as analytical thinking, communication, creativity, collaboration, and decision-making while encouraging active participation and practical learning.
