KIT's College of Engineering (Empowered Autonomous) Kolhapur

Ek Bharat Shreshtha Bharat Club

Details of Activities conducted in AY 2025-26

Name of Club – Ek Bharat Shreshtha Bharat Club

Tagline and Logo -

Tagline : Unity in Diversity

Establishment Year- 2025

Information about club –

The Ek Bharat Shreshtha Bharat (EBSB) Club is an initiative to promote national integration and cultural unity among the states of India. The club aims to strengthen the idea of "Unity in Diversity" by encouraging students to learn about the traditions, languages, and cultural practices of different regions.

Various activities are organized under the EBSB Club, such as cultural presentations, Modi lipi workshop, quizzes, poster-making, and events like Sanskruti Prabodhan, where students represent and showcase the uniqueness of different states. These activities help students gain knowledge about India's rich cultural heritage while developing respect and appreciation for diversity.

Participation in the club enhances students' communication skills, creativity, and teamwork. It also fosters a sense of responsibility and national pride among them.

Overall, the EBSB Club serves as an effective platform for promoting cultural awareness, mutual understanding, and unity among students, contributing to the development of informed and responsible citizens.

Stargazing session	2 Feb 2026	Not Applicable	170

Summary of Each Activity:

1. **Avani Sanstha Visit & Independence Day :**

On 15th August 2025, the Ek Bharat Shrestha Bharat Club visited Avani Sanstha to celebrate Independence Day and spread joy among the children. The visit included a street play on Women Empowerment, an Open Mic session where students showcased their singing talents, and a creative workshop on making eco-friendly sky lanterns. The program featured positive interactions

between club members, faculty, Sanstha staff, and children; Strengthening their commitment to the children's welfare, including a generous donation of rice, fruits and financial support. The event successfully created social awareness, encouraged creativity, and fostered a sense of empathy and community responsibility among the participants while strengthening the bond between the club and the Sanstha.

2. Sanskruti Prabodhan Activity

The Ek Bharat Shrestha Bharat Club of Kolhapur Institute of Technology organized Sanskruti Prabodhan, a cultural diversity activity aimed at spreading awareness and cultural pride among students. The event featured student volunteers who were assigned different states of India and delivered presentations covering culture, festivals, food, and important landmarks. It included engaging segments such as state-wise presentations, street skits depicting regional lifestyles, cultural dance performances, songs, and active audience interaction. The activity successfully provided students a firsthand experience of India's cultural richness & boosted their confidence.

3. Uttarayan - Sanskruti Sangam

The opening day of Uttarayan, themed Sanskruti Sangam, served as a vibrant tribute to India's diverse heritage and the spirit of collective creativity. The event commenced with a prestigious Inauguration Ceremony at the Kolhapur Institute of Technology, where students gathered to celebrate the core values of the Ek Bharat Shrestha Bharat initiative. A major highlight of the morning was the Heritage Hunt, an immersive and fast-paced competition that required participants to solve cultural riddles and effectively blending physical activity with intellectual discovery. This was followed by an intensive Kite Making Activity, where students transitioned from being observers of tradition to active creators. Working in teams, they utilized various materials to design provided by team EBSB and construct their own kites, a process that not only fostered artistic expression but also strengthened peer bonding.

4. Uttarayan - Ambar Utsav

The second day, celebrated as Ambar Utsav, brought the energy of the festival to the open skies, focusing on the joy of participation. The day began with the highly anticipated Kite Flying session, where the vibrant creations from the previous day's workshop filled the air. This activity served as a powerful visual representation of unity in diversity, as students from various backgrounds joined together in a shared cultural tradition, demonstrating both sportsmanship and coordination. Following the excitement on the field, the atmosphere shifted to the Open Mic Session, which provided an inclusive and supportive platform for students to voice their thoughts, share poetry, or showcase musical talents. This session was instrumental in boosting the participants' confidence and leadership skills, allowing them to connect on a deeper personal level and reinforcing the sense of community that the EBSB Club aims to cultivate within the institute.

5. Modi Lipi Workshop

A Modi Lipi Workshop was conducted during the Uttarayan event by the EBSB Club to create awareness about the historical script of Maharashtra. The workshop introduced participants to the origin, history, and cultural significance of Modi Lipi, which was widely used during the Maratha Empire for administrative purposes. It included explanations of its importance in Marathi heritage providing historic evidences such as temple records and manuscripts associated with temples like Tulja bhavani temple, demonstrations of basic alphabets and writing patterns, and an interactive discussion on preserving traditional scripts. The session was informative and engaging, successfully inspiring students to appreciate and preserve Maharashtra's rich linguistic heritage.

6. Stargazing activity

During the Uttarayan event, a stargazing activity was successfully organized in collaboration with the Gaganvedi Team. The session aimed to spread awareness and knowledge about astronomy and the night sky among participants. Information about stars, constellations, planets, and various celestial events visible during the Uttarayan sky was shared in an interactive and engaging manner. Participants were also given an opportunity to observe these astronomical objects directly through telescopes, making the experience both educational and memorable. The activity created great enthusiasm among attendees and encouraged curiosity towards space science and sky observation.
