NCC KITCoEK

REPORT OF VISIT OF FLYING OFFICER AVISHKAR DONGALE FOR INTERACTIVE SESSION CONDUCTED IN KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS).

Titled as:VISIT OF FLYING OFFICER AVISHKAR DONGALE

Introduction: On1 April 2025 the National Cadet Corps (NCC) organized a special event to welcome Flying Officer Avishkar Dongale ,who visited the college. The event took place at Kit's college of engineering (Seminar hall) , and it was attended by NCC cadets, college staff, and students.

The event at Kolhapur Institute of Technology College of Engineering Kolhapur(Empowered Autonomous) aimed to inspire cadets and students by sharing real-life defence experiences and encouraged cadets to follow their passion, stay focused, and serve the nation with pride.

As a part of the program, the event was divided into three main segments:

- Interactive session with guest
- Speech by flying officer
- Question–Answer session with participants

The event left a lasting impact on the audience, igniting a deeper sense of patriotism and a clearer vision of what it means to serve the nation.
Flying Officer Dongale's insights into military life, leadership, and discipline deeply resonated with the cadets.

Schedule:

1545 HRS – Gathering at Seminar Hall

1545–1550 HRS – Program Introduction

1550–1600 HRS – Guest Introduction and Felicitation

1600–1730 HRS – Speech & Interactive Session with the Officer

1730–1745 HRS – Summary

1745–1755 HRS – Vote of Thanks

Co-ordinator – CTO**.** Mr. Ranjit Patil Sir.

Venue- KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS),

Main building Seminar hall.

Agenda: To inspire and motivate students by providing valuable insights into the life, values, and career journey of a Flying Officer. The session aims to instill a sense of patriotism, discipline, and dedication among the youth. Through direct interaction with a serving officer, students will gain a deeper understanding of the challenges, responsibilities, and honour associated with a career in the armed forces. The event also seeks to encourage students to develop leadership qualities, a strong sense of national pride, and an interest in serving the nation through defence services or other meaningful contributions. By showcasing real-life experiences and the personal growth achieved through military service, the session aspires to ignite passion, courage, and purpose in the minds of future leaders.

Key Activities:

- **Speech & Guest Interaction:**

Following a warm welcome and formal introduction, an interactive session was held with **Flying Officer Avishkar Dongale**, which quickly became the highlight of the event. A special "**101 Session**" was conducted exclusively for the NCC cadets, designed to provide a closer look into the life of an Air Force officer.

During this session, cadets actively engaged with the guest, asking a wide range of thoughtful questions covering topics such as daily life in the armed forces, rigorous training routines, career pathways, and the psychological and physical demands of military service.

Flying Officer Dongale responded with great enthusiasm and clarity, offering not only factual insights but also personal anecdotes that resonated deeply with the young audience. The officer's approachable demeanor and genuine passion for service created

a motivating atmosphere, leaving the cadets feeling inspired to push their limits, embrace discipline, and aim for excellence in all areas of life.

- **Motivational Speech by Flying Officer:**

In the next segment, Flying Officer Avishkar Dongale delivered a powerful and heartfelt speech, focusing on their personal journey into the Indian Air Force. The officer spoke candidly about the initial struggles, the rigorous selection process, and the unwavering commitment required to overcome challenges along the way.

Through vivid storytelling, the officer shared real-life experiences from training, field duties, and moments that tested both physical endurance and mental strength. The core message centered on the importance of **perseverance, discipline, and purpose**—qualities essential not just for a career in the defence forces but in any path of life.

The speech was not only informative but emotionally uplifting, reinforcing the idea that with hard work, dedication, and belief in oneself, no goal is out of reach. The Flying Officer concluded with a call to action, urging cadets and students to remain committed to their dreams, uphold national pride, and consider serving the nation as a noble and fulfilling calling.

Conclusion: The visit of **Flying Officer Avishkar Dongale** was a great success and proved to be a valuable learning experience for all present. It offered NCC cadets a rare chance to interact with a serving defence officer and gain firsthand insight into life in the Indian Air Force.

The officer's words inspired many cadets to work harder in their training and seriously consider a future in the armed forces. The session not only motivated students but also reinforced the core NCC values of discipline, leadership, and patriotism.

Overall, the event left a lasting impact, encouraging cadets to stay focused, aim high, and serve the nation with pride.

REPORT OF SPEAKER SESSION BY SSB RECOMMENED NCC CADETS CONDUCTED IN KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS).

Titled as: Interactive Speaker session with SSB Recommened NCC Cadets **.**

Introduction: A Session that provide the guidance of complete SSB procedure and clarify the doughts of cadets.

As a part of Session , the session was divided into three parts.

1. SSB Interview Experience of Recommened Cadets.
2. Detailed guidance of Pshycology Test, GTO task and Personal Interview.
3. Question and Answer Session .

Schedule:

1000HRS – Felicitation of Recommended cadets by CTO Sir.

1000-1100HRS – SSB Interview experience of Recommened Seniors.

1100-1200 HRS- Detailed Guidance of Complete 5 Days Selection process.

1200-1230HRS- Question and Answers Session .

1230HRS- Session is completed with National Song.

Co-ordinator – CTO Ranjit Patil Sir.

Venue- KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS)

Agenda: Provide an overview of the Services Selection Board (SSB) interview, explaining its purpose, significance, and the various entry routes such as NDA, CDS, AFCAT, and TES.

detailed explanation of the five-day selection process, including Stage I Screening Tests (OIR and PP&DT), Stage II Psychological Assessments (TAT, WAT, SRT, and Self-Description), Group Testing Officer (GTO) tasks over Days 3 and 4 (Group Discussion, Group Planning Exercise, Progressive Group Task, Lecturette, Command Task, and others), and the Day 5 Conference procedure with decision-making criteria

offering practical preparation strategies to develop Officer-Like Qualities (OLQs), improve communication skills, enhance physical fitness, and strengthen psychological readiness. Common myths and mistakes will be addressed to help aspirants avoid pitfalls in the selection process.

Key Activities:

- **Guidance of Screnning Test(1st Day) of SSB:** The Screening Test in the SSB, conducted on Day 1, serves as the primary shortlisting stage to filter candidates for further assessment and comprises two main components: the Officer Intelligence Rating (OIR) test and the Picture Perception and Discussion Test (PP&DT). The OIR test evaluates a candidate's basic reasoning ability through verbal and non-verbal questions such as series completion, coding-decoding, analogies, pattern recognition, and figure classification, requiring both speed and accuracy to secure a high score. The PP&DT begins with the projection of a blurred picture for 30 seconds, after which candidates are given four minutes to note the number of characters, their age, gender, and mood, and to craft a short, logical story depicting a situation, the actions taken, and a positive outcome. This is followed by an individual narration of the story and a group discussion aimed at forming a common version, where assessors observe clarity of thought, confidence, listening skills, teamwork, and leadership. Success in the Screening Test depends on sharp observation, original and practical storytelling, effective time management, and the ability to participate actively yet harmoniously in group discussions. Candidates should avoid unrealistic or overly dramatic plots, dominating or remaining silent in discussions, and neglecting easy OIR questions in favor of difficult ones. Regular practice with OIR question sets, timed story-writing from random images, and confident narration drills can significantly enhance performance and improve the chances of clearing this crucial first hurdle.

- **Guidance for Psychology Test** : The Psychology Test in the SSB, conducted on Day 2, is designed to assess a candidate's personality, thought process, and Officer-Like Qualities (OLQs) at the subconscious level, without the influence of rehearsed responses. It comprises four key assessments.

  The Thematic Apperception Test (TAT) presents 11 pictures and one blank slide, each shown for 30 seconds, with four minutes allotted to write a story reflecting a positive, logical, and action-oriented approach.

  The Word Association Test (WAT) displays 60 words, each for 15 seconds, requiring the candidate to form the first sentence that comes to mind, revealing personal attitudes and values.

  The Situation Reaction Test (SRT) provides 60 real-life situations to be answered in 30 minutes, focusing on quick, practical, and constructive decision-making under pressure.

  The Self-Description (SD) Test asks candidates to write perceptions about themselves from the viewpoints of parents, teachers, friends, and self, along with their life goals.

  Performance in these tests hinges on spontaneity, honesty, and consistency, as assessors cross-check responses across different exercises. To excel, candidates should cultivate positive thinking, practice timed drills for each test type, and develop problem-solving approaches that are realistic yet optimistic, ensuring that their responses naturally reflect the qualities expected of a future officer.

❖ **Guidance for Personal Interview :** The Personal Interview in the SSB is an in-depth, one-on-one interaction between the candidate and the Interviewing Officer (IO), typically conducted on Day 2, 3, or 4, and is aimed at assessing the candidate's personality, life experiences, communication skills, and Officer-Like Qualities (OLQs).

The interview usually begins with a warm introduction and light conversation to put the candidate at ease, followed by a series of questions covering personal background, academics, family, hobbies, achievements, and current affairs.

The IO often uses a detailed questionnaire known as the Personal Information Questionnaire (PIQ), which candidates fill out on arrival, to frame questions that explore consistency, honesty, and self-awareness. Situational and opinion-based questions are asked to evaluate decision-making, responsibility, and adaptability, while rapid-fire rounds test memory, clarity of thought, and confidence.

The key to performing well lies in being genuine, maintaining a positive attitude, answering concisely yet clearly, and demonstrating awareness about one's environment and chosen service. Candidates should avoid exaggeration, guesswork in factual questions, or defensive behavior when challenged. Good preparation involves thorough self-analysis, staying updated on national and international events, and practicing mock interviews to develop a calm, structured, and confident manner of communication.

- **Question and Answer Session:** The Cadets who had doughts and misunderstandings regarding SSB Interview were Cleared by the Recommended Cadets. Also they briefed about various ways to join Indian Armed Forces after the Graduation.

Conclusion: In conclusion, the SSB interview speaker session serves as an invaluable platform for aspiring candidates to gain clarity, direction, and motivation for one of the most challenging selection processes in the country. By combining a detailed explanation of the five-day procedure with practical strategies, real-life experiences, and insights into common pitfalls, the session equips participants with both the knowledge and mindset required to succeed. Beyond the technical aspects, it reinforces the importance of cultivating genuine Officer-Like Qualities—such as leadership, responsibility, adaptability, and integrity—which are the true determinants of success in the SSB. The interactive discussions, personal anecdotes, and motivational closing leave candidates better prepared, more confident, and inspired to approach the selection process with authenticity and determination, ensuring they present their best and most natural selves before the assessors.

Kargil Vijay Diwas: Honouring Our Heroes

On the occasion of Kargil Vijay Diwas (July 26th), NCC Kolhapur Institute Technology's College of Engineering, Kolhapur(Empowered Autonomous) paid heartfelt tribute to our brave soldiers who fought for our country and laid down their lives in service of the nation. Our cadets conducted inspirational sessions in seven high schools to honour their sacrifice.

- **Schools visited:**

1) Sai English Medium School, Kolhapur.
2) Sau. S. M. Lohiya Highschool, Kolhapur.
3) Shrimant Jaysingrao Ghatage Highschool, Kolhapur.
4) Maharashtra Highschool, Kolhapur.
5) Kolhapur Highschool, Kolhapur.
6) Deshbhakta Ratanappa Khumbhar Highschool, Kolhapur.
7) Shri Ujjalai Devi Vidya Mandir High School, Kolhapur.

During these sessions, our cadets spread awareness about the Kargil War through engaging storytelling and informative presentations.

topics Key covered included:

Stories of the Kargil War: Highlighting the pivotal roles of the Indian Army, Indian Navy, and Indian Air Force. The **Indian Army**, **Indian Navy**, and **Indian Air Force** each play crucial roles in safeguarding India's security:

- **Indian Army**: Defends land borders, conducts counterinsurgency operations, and provides disaster relief.
- **Indian Navy**: Protects maritime borders, ensures regional maritime stability, and conducts anti-piracy and humanitarian missions.
- **Indian Air Force**: Ensures air superiority, conducts precision strikes, provides rapid mobility, and performs surveillance and reconnaissance.

Together, these forces work in synergy to protect India's sovereignty and maintain strategic deterrence.

Joining the Armed Forces: Pathways to becoming an Officer or a Jawan. In the Indian

Armed Forces, individuals can join either as an **Officer** or a **Jawan** (soldier), each with different pathways:

Becoming an Officer:

Officers are the leaders and decision-makers in the military. To become one, candidates typically go through the following routes:

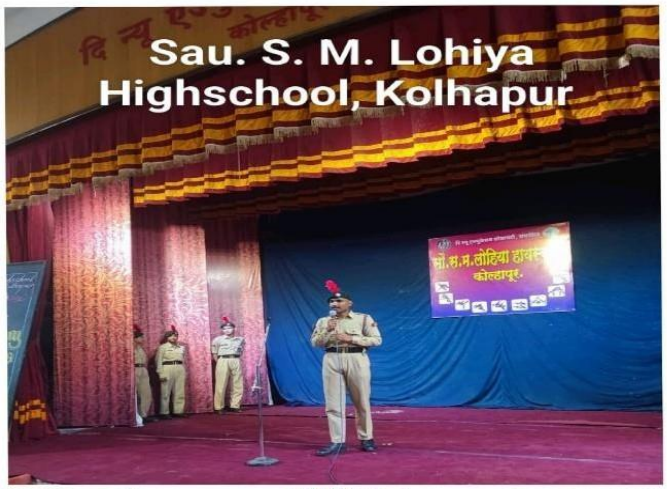

1. **National Defence Academy (NDA)**: After completing 12th grade, candidates can join the NDA, which offers a three-year training program, followed by training at respective service academies (Indian Military Academy, Naval Academy, or Air Force Academy).
2. **Indian Military Academy (IMA)**: After graduation, candidates can apply for IMA through the Combined Defence Services (CDS) exam, which includes written tests, SSB interviews, and medical exams.
3. **Indian Naval Academy (INA)**: Graduates can join the Indian Navy through the CDS or the direct entry scheme for specific technical branches.
4. **Air Force Academy (AFA)**: Graduates can apply for the Air Force through the CDS exam or other specialized routes for pilots and technical officers.
5. **Technical Entry Scheme (TES)**: For those with a technical background (engineering), this is a direct entry into officer ranks after class 12.

Benefits of NCC: Exploring the advantages of joining the National Cadet Corps.

Joining the **National Cadet Corps (NCC)** offers numerous advantages, particularly for youth looking to develop leadership skills and contribute to national service:

1. **Discipline and Leadership**: NCC training instills discipline, responsibility, and leadership qualities, preparing cadets for both military and civilian careers.
2. **Physical Fitness**: Regular physical activities and drills promote fitness and overall health.
3. **Adventure and Exposure**: Cadets engage in activities like trekking, camping, and shooting, fostering teamwork and confidence.

4. **Career Opportunities**: NCC cadets get preference in recruitment for the Indian Armed Forces and other government jobs, especially in defense and paramilitary sectors.
5. **Character Development**: It cultivates a sense of national pride, unity, and patriotism while encouraging social responsibility and service to the community.

Overall, the NCC provides valuable life skills and a pathway to a potential career in defence while enhancing personal growth and national contribution.

Guidelines for Responsible Citizens:

Fostering a sense of civic duty. Through these efforts, our cadets inspired young students with the bravery, courage, determination, and selflessness of the Indian Armed Forces soldiers. This initiative sparked a sense of patriotism and contribute to nation-building.

Jai Hind!

REPORT OF KARGIL VIJAY DIWAS INTERACTIVE SESSION CONDUCTED IN KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS).

Titled as: KARGIL VIJAY DIWAS.

Introduction: Kargil Vijay Diwas is celebrated to commemorate India's victory in the 1999 Kargil War and to honour the bravery and sacrifice of the Indian Armed Forces.

The event at Kolhapur Institute of Technology College of Engineering Kolhapur(Empowered Autonomous) aimed to inspire cadets and students by sharing real-life defence experiences and demonstrating the importance of modern technology in warfare.

As a part of the program, the event was divided into three main segments:

1. Speeches by dignitaries
2. Interactive session on modern warfare technology
3. Question–Answer session with participants

Schedule:

1545 HRS **–** Gathering at Mechanical Department Seminar Hall

1545–1550 HRS – Program Introduction by Cdt. Snehal Patil

1550–1600 HRS – Guest Introduction by Isha Kadam

1600–1730 HRS – Speech & Interactive Session by Lt. Colonel Pratapsingh Ravarane Sir

1730–1745 HRS – Speech by Dr. Mohan Vanarotti Sir, Director, KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS).

1745–1755 HRS – Summary by Seema Patil

1755–1800 HRS – Vote of Thanks by Cdt. Vedant Sawant

Co-ordinator – CTO**.** Mr. Ranjit Patil Sir.

Guide- Mr. Amit Vaidya Sir.

Venue- KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS), Mechanical department Seminar hall.

Agenda: To pay tribute to the martyrs of the Kargil War, instil patriotism, and create awareness about the role of technology in modern defence.

Key Activities:

Speech & Guest Interaction:

Lt. Colonel Pratapsingh Ravarane Sir shared his first-hand experience of defence service, particularly the role of missiles, drones, and advanced surveillance systems during and after the Kargil War. His insights motivated cadets towards discipline, teamwork, and service to the nation.

Address by Director:

Dr. Mohan Vanarotti Sir appreciated the efforts of the organising team and highlighted the importance of youth understanding national security challenges.

COLLEGE OF ENGINEERING KOLHAPUR
Kargil Vijay Diwas
KARGIL
VIJAY DIWAS
MEMENTO

Lt. Colonel Pratapsingh Ravarane Sir delivered an inspiring address, recalling the resilience of Indian soldiers during the Kargil War and explaining how modern technology — including missiles, drones, AI, cyber capabilities, and advanced surveillance — has transformed warfare. He emphasised the vital role of youth and engineering students in nation-building, encouraging them to engage in defence R&D, collaborate with organisations like DRDO and ISRO, and innovate in areas such as electronics, data analytics, and emerging technologies. Highlighting ‘Made in India’ initiatives and indigenous defence systems like the Tejas fighter jet, he urged students to develop skills that strengthen India’s self-reliance in defence, while always honouring the courage and sacrifice of our armed forces."

Conclusion: The Kargil Vijay Diwas program was a fitting tribute to the bravery of Indian soldiers. It successfully combined patriotism with valuable learning, inspiring cadets to uphold discipline, teamwork, and national pride. The event fostered awareness about modern defence capabilities while honouring the sacrifices of our armed forces.

REPORT OF KSHAMATA ACTIVITY CONDUCTED IN KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS).

Titled as: KSHAMATA.

Introduction: A physical endurance challenge that test , the strength, agility, and team spirit.

As a part of activity, the activity was divided into three parts.

1. Marathon Run
2. Tug of War
3. Tire Flip

Schedule:

0800HRS – Fallin of Everyone on Ground.

0800- 0830HRS – Breifing of complete activity and creation of teams.

0830-0900 HRS- Marathon Run.

0900-1000HRS- Tug of War .

1000-1100HRS- Tire Flip and Group Activity.

1100HRS- Whole Activity is completed.

Co-ordinator – CTO**.** Mr. Ranjit Patil Sir.

Guide- Mr. Amit Vaidya Sir.

Venue- KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING, KOLHAPUR (EMPOWERED AUTONOMOUS), GROUND.

Agenda: To check the strength , agility and team spiritness of the cadets. The main challenges unfolded with marathon to test endurance, followed by Tug of War to showcase teamwork and strength, and the tire flip and other group activities were to measure the raw power .

Also, the additional surprise challenges were kept to keep participants on their toes, pushing limits and building camaraderie.

Key Activities:

- **Marathon Run**: A marathon run is typiccaly conducted as a large, Organized road race in which participants cover a large distance . The event Began with an official start time, often using a staggered wave start system to Manage the large crowds.

The volunteers are positioned throught o guide runners, ensure safety and Enforce Rules. Aid stations are placed at regular intervals – offering water, Energy gels and medical assistance.

The race is concluded at designated finish line, where official times are recorded, Medals are awarded to finishers, and post-race recovery areas provide refreshments and first aid.

❖ **Tug Of War** :

Tug-of-war is a traditional team sport in which two opposing teams compete to pull a rope in opposite directions, with the goal of moving a central marker or flag past a designated point on their side.

It is a test of strength, coordination, and teamwork, requiring participants to synchronize their efforts and maintain a steady rhythm to maximize pulling power.

The game is usually played on a flat surface, such as grass, sand, or indoor flooring, with teams of equal numbers commonly eight members each,to ensure fairness.

The contest begins on a referee's signal, and teams must pull while keeping within their designated lanes, avoiding fouls such as sitting down, wrapping the rope around the body, or letting go.

❖ **Tire Flip and Group Activity :**

The tire flip is a full-body, functional exercise often seen in strongman training and high-intensity workouts.

It begins with the athlete squatting low with a straight back, gripping the bottom of a large tire-typically a tractor or truck tire, and driving explosively through the legs, hips, and core to lift the tire from the ground using a “triple extension” movement.

As the tire rises, the lifter transitions their hands from an underhand to an overhand grip, stepping forward and using upper-body strength from the chest, arms, and shoulders to push the tire over.

This compound motion engages nearly every major muscle group.
Its explosive nature also improves functional fitness, coordination, mental toughness, and endurance, while doubling as an aerobic workout.

However, proper technique is vital, as common mistakes—such as using the arms instead of legs for power, setting the hips too high, or applying uneven force—can increase risk of injury, especially to the back and biceps.

Conclusion: In conclusion, activitity that demanded physical endurance, strength, and skill also serve as powerful tools for developing both the body and mind. Cadets built their muscular power, cardiovascular health, and coordination while also enhancing discipline, resilience, and mental toughness. Beyond the measurable physical benefits, this activity fostered teamwork, confidence, and a sense of achievement, encouraging individuals to push past limitations and discover new capabilities. Ultimately, Everyone not only got test of physical ability but also opportunities for personal growth, community connection, and lifelong well-being.
