  1) Eco-Friendly Ganesh Idol Making Workshop Ganapati Festival – 23/08/2025

Program No.01: Eco-Friendly Ganesh Idol Making Workshop Ganapati Festival - 2025

Event Name: Prarambha Introduction:

The "Prarambha" event conducted during the Ganesh festival was a resounding success, aimed at creating awareness about the use of the eco-friendly Ganesh idols fostering a sense of responsibility towards environmental protection. This report outlines the key highlights and outcomes of the event.

Event Objective:

The primary objective of the "Prarambha" event was to raise awareness about the use of eco-friendly Ganesh idols made of natural soil or shadu instead of using the once made plaster of paris, which are harmful for the environment. By promoting eco-friendly practices, the event aimed to instill a sense of responsibility among participants towards protecting the environment and preserving natural resources.

Additional objective we aimed at achieving was promoting the plantation of various indigenous varieties of plants. The eco-friendly Ganesh idol, crafted from natural soil, is infused with seeds from various plants. Once the festivities conclude, the idol can be safely transferred to a pot or garden, where it will sprout into a vibrant plant. This practice not only honors tradition but also nurtures the environment, symbolizing new beginnings (prarambha) and growth.

Key Activities:

Awareness Campaign: The event featured an awareness campaign highlighting the importance of eco-friendly Ganesh idols and the adverse effects of improper Visarjan of idols on the environment.

Speaker Sessions: Speaker sessions were conducted to educate participants about simple and effective changes to traditional celebration of Ganesh festival which will be eco-friendly and contribute to the conservation of the environment.

Demonstration: Demonstrations were organized to showcase the process of eco-Ganesh idol making by an expert professional simple and elegant methods. Participants were provided with materials and the know-how to create their own idols. participants learned about the importance of natural materials, the crafting process, and the benefits of choosing eco-friendly options.

Hands-on Activity: This interactive session allowed everyone to create beautiful idols while also appreciating sustainability and traditional art, making it possible to celebrate the festival in an

environmentally friendly way.

Outcome:

The "Prarambha " event succeeded in achieving its objectives by:

- Creating awareness about eco-friendly Ganesh idols and eco-friendly celebration of festivals.
- Educating participants about the importance of responsibilities towards the environment.
- Encouraging participants to take proactive steps towards protecting the environment, by encouraging plantation trees.
- Demonstrating that By making simple eco-friendly choices and encouraging others to do the same, we can make a big difference. This helps not only ourselves but also creates a healthier planet for future generations.

Conclusion:

The "Prarambha" event served as a platform for promoting eco-friendly practices and fostering a sense of environmental responsibility among participants. By advocating for the eco-friendly Ganesh idols, participants learned valuable lessons about sustainability and the importance of preserving the environment for future generations.
