KOLHAPUR INSTITUTE OF TECHNOLOGY'S COLLEGE OF ENGINEERING KOLHAPUR (EMPOWERED AUTONOMOUS)

KIT's College of Engineering (Autonomous) Kolhapur

Student Developers Club

Details of Activities conducted in AY 2025-26

Name of Club – Student Developers Club

Tagline and Logo -

Establishment Year- 2023-24

Information about club – The Student Developers Club serves as an excellent platform for students to enhance their technical knowledge, creativity, leadership qualities, and teamwork skills beyond the classroom environment. Through workshops, seminars, coding activities, technical competitions, and interactive sessions, the club encourages students to explore emerging technologies and develop practical problem-solving abilities. It helps bridge the gap between academic learning and industry expectations by providing opportunities for hands-on experience, peer learning, and interaction with industry experts. The club also promotes innovation, confidence, and professional growth among students, motivating them to become skilled, responsible, and industry-ready professionals.

Faculty Coordinator- Dr. Ashish Patil

Student Coordinator- Ms. Sakshi Kulkarni

Activities Conducted in the Academic Year 2025-26 by the student club-

Name of the Activity	Date of Activity	Resource person/judge	Student beneficiary count
Effective Strategies for the Placement Preparation	19/07/2025	Mr. Atharv Patil Ms. Shreya Chavan	200
Puzzles and Logical Thinking Skills	04/03/2026	Mr. Sujay Lande	240

Summary of Each Activity

1) Effective Strategies for the Placement Preparation

The Student Developers Club at KIT's College of Engineering, Kolhapur in association with ACADS, Department of CSE (AIML and DS) successfully conducted a one-day workshop on **"Effective Strategies for Placement Preparation"** on Saturday, 19/07/2025 from 11:15 am to 5:00 pm.

Nearly than 200 students benefitted from this workshop. The session provided valuable insights into placement preparation strategies, aptitude training, resume building, interview techniques, and communication skills required for campus recruitment drives. Students actively participated in various interactive activities and gained practical guidance for improving their placement readiness. The enthusiasm and involvement of students throughout the session were truly remarkable.

A big thanks to **Mr. Atharva Patil, Algorizz Technologies Private Limited, Ms. Shreya Chavan, Placed in Cogitate Technology Solutions**, for sharing their valuable industry experience and expert guidance. We also appreciate all the students for their active participation and keen interest in enhancing their professional skills.

The participants of this workshop benefitted with practical knowledge and strategies related to placement preparation, aptitude problem-solving, resume enhancement, and interview handling techniques. Following are the outcomes of this workshop:

1. Understanding effective strategies for campus placement preparation and planning a structured roadmap for achieving placement goals.
2. Learning techniques to improve aptitude, logical reasoning, and problem-solving skills required for placement tests.
3. Developing professional resumes, improving communication skills, and gaining confidence for technical as well as HR interviews.
4. Awareness about current industry expectations, career opportunities, and tips for succeeding in group discussions and interviews.

Let us continue to empower students with the right guidance and skills to achieve successful careers and professional growth!

The response from students was highly encouraging and overwhelming, and we look forward to organizing many more such career-oriented workshops in the future.

2) Puzzles and Logical Thinking Skills

The Student Developers Club at KIT's College of Engineering, Kolhapur in association with ACADS, Department of CSE (AIML and DS) successfully conducted a one-day session on **"Puzzles and Logical Thinking Skills"** on Saturday, 04/03/2026 from 1:45 pm to 5:00 pm.

More than 240 students benefitted from this interactive session. The event focused on enhancing students' logical reasoning, analytical thinking, and problem-solving abilities through various engaging

puzzles and brain teasers. Students enthusiastically participated in different activities that challenged their creativity, critical thinking, and decision-making skills. The lively atmosphere and active involvement of participants made the session highly engaging and enjoyable.

A special thanks to **Mr. Sujay Lande, Assistant Professor in the department of CSE (AIML)**, for conducting the session and sharing valuable techniques to approach logical and analytical problems effectively. We also appreciate all the students for their energetic participation and positive response throughout the session.

The participants of this session benefitted with practical exposure to different types of puzzles and problem-solving methods. Following are the outcomes of this session:

1. Development of logical reasoning and analytical thinking skills through solving various puzzles and brain teasers.
2. Improvement in problem-solving approaches, decision-making abilities, and creative thinking techniques.
3. Enhancement of aptitude skills useful for competitive examinations, coding assessments, and placement preparation.
4. Understanding the importance of patience, observation, and structured thinking while solving complex problems.

Let us continue to encourage innovative thinking and problem-solving skills among students through such interactive and knowledge-enriching activities!

The response from students was extremely positive and overwhelming, and we look forward to organizing many more such engaging and skill-oriented sessions in the future.
